Job No. 73781.01

Mr. Chris Mercaitis
AMERESCO

**Response to Comments
Work Plan & Health and Safety Plan
Underground Storage Tank Removal
Building 11
Naval Station Great Lakes
Great Lakes, Illinois**

Dear Mr. Mercaitis:

The following are TolTest's responses to Lt. Constance L. Danner, CEC, USN January 19, 2005 comments regarding the Building 11 UST Removal Work Plan & Health and Safety Plan.

Comment 1: "Each" implies more than one UST.

Response: TolTest has removed the word "each" and replaced it with the word "the".

Comment 2: "December 23, 2003" and "No copy of permit application at Appendix A".

Response: TolTest has revised the document to correct the date to December 21, 2004 and has also included a copy of the permit in the final work plan.

Comment 3: "6 or 8 confirmatory samples?"

Response: TolTest revised the text to state that 6 confirmation samples will be collected from the excavation cavity.

Comment 4: Is there sufficient daylight to safely work 10-hour days?

Response: TolTest changed the work schedule to reflect 8-hour work days five days a week.

Comment 5: Appendix A: No copy of the permit application as noted above.

Response: At the time the draft was written TolTest was in the process of applying for the permit. A copy of the permit is now inserted into the work plan.

Comment 6: Appendix B: No copies of current OSHA General Site Worker Program certification.

Response: TolTest has inserted copies of the OSHA certifications for its workers into Appendix B.

Should further clarification concerning this document be necessary, please do not hesitate to contact us at 847-689-0697.

Respectfully Submitted,

TolTest, Inc.
